

# Design Edge®

## Lomandra confertifolia Tilga™

**AT A GLANCE**

| FOLIAGE   | FLOWER  | HABIT   | HEIGHT  | WIDTH   | SPACING   |
|---|---|---|---|---|---|
|  |  |  |  |  |  |
| Green   | Cream   | Spherical Tuft  | 0.70m   | 0.40–0.50m  | 0.30–0.50m  |

**Best for:**  
Used extensively in commercial landscapes, ideal for edge rows and en-masse plantings.

Climatic Zone: 1 - 4

### A true performer—Tilga™ is robust and reliable

Tilga™ is a very vigorous, narrow leafed Lomandra that develops a graceful weeping habit as it matures.

As Tilga has strong roots, it is a very dependable selection for large scale plantings, either beside roadways or en masse in parks and gardens. Its symmetrical form is highly appreciated.

**Pictures**

1. Tilga has a graceful weeping habit to soften hard landscapes. Ideal for row plantings.
2. Suitable for residential use.
3. Strong roots support vigorous growth in 14 cm pots.

# VARIETY SPECIFICATION SHEET – Carex, Dianella, Lomandra

| BOTANICAL NAME                      | VARIETY      | FOLIAGE COLOUR      | FLOWER COLOUR | HABIT                    | HEIGHT     | WIDTH    | SPACING BETWEEN PLANTS | COLD TOLERANCE                                 | SOIL TOLERANCE             | CLIMATIC ZONE | BEST FOR  |
|-------------------------------------|--------------|---------------------|---------------|--------------------------|------------|----------|------------------------|--|----------------------------|---------------|---|
| Carex oshimensis                    | Everest™     | White/Green Striped | Brown         | Mound                    | 0.45m      | 0.45m    | 0.30m                  | to -15°C                                       | Dislikes heavy wet soils   | 1, 2, 4       | Groundcover, garden border, containers. Full sun to part sun.   |
| Carex oshimensis                    | Everoro™     | Gold/Green Striped  | Brown         | Mound                    | 0.50m      | 0.50m    | 0.40m                  | to -15°C                                       | Dislikes heavy wet soils   | 1, 2, 4       | Groundcover, garden border, containers. Full sun to part sun.   |
| Dianella caerulea                   | Stampede™    | Bright Green        | Blue          | U/ground spreading clump | 0.35-0.45m | 0.4-0.5m | 0.3-0.5m               | 0°C  | Heavy loam to light sandy  | 1 ~ 4         | Revegetation, stabilizing embankments. Best to 5°C, but will tolerate 0°C.                                    |
| Dianella hybrid                     | Di-Mond™     | Dark Green          | Blue          | Spherical tuft           | 0.7m       | 0.7m     | 0.7-0.8m               | to -5°C  | Heavy loam to light sandy  | 1 ~ 3         | Borders next to pathways, courtyards or wherever a low growing variety is required.                           |
| Dianella hybrid                     | Explorer™    | Dark Green          | Blue          | U/ground spreading clump | 0.9m       | 0.9m     | 0.8-1.0m               | 0°C, and still being assessed for lower temps  | Heavy loam to light sandy  | 1 ~ 4         | Revegetation, stabilizing embankments.  |
| Dianella hybrid                     | Streetscape® | Mid Green           | Blue          | Dense plume              | 0.6m       | 0.5m     | 0.4-0.6m               | to -5°C  | Heavy loam to light sandy  | 1 ~ 4         | Median strips, borders next to pathways, driveways, courtyards or wherever a low growing variety is required. |
| Dianella revoluta                   | Coolvista™   | Grey Green          | Blue          | Upright clump            | 0.45m      | 0.4m     | 0.4m                   | -5°C, and still being assessed for lower temps | Heavy loam to light sandy  | 1 ~ 3         | Contrasting grey green colour, borders next to pathways or driveways, courtyards.                             |
| Lomandra confertifolia              | Keira™       | Bright Green        | Cream         | Spherical tuft           | 0.3m       | 0.4m     | 0.3-0.5m               | to -5°C  | Medium loam to light sandy | 1, 2, 4       | Ball shaped domes, ideal for continuous edge rows or individual specimens.                                    |
| Lomandra confertifolia rubiginosa   | Crackerjack™ | Blue Green          | Cream         | Spherical tuft           | 0.7m       | 1.0m     | 1.0m                   | to -5°C  | Medium loam to light sandy | 1 ~ 4         | Use for softening the edges of paved surfaces, and massed planting in large spaces.                           |
| Lomandra confertifolia ssp. pallida | Tilga™       | Green               | Cream         | Spherical tuft           | 0.7m       | 0.4-0.5m | 0.4-0.5m               | to -5°C  | Medium loam to light sandy | 1 ~ 4         | Used extensively in commercial landscapes, ideal for edge rows and en masse planting.                         |
| Lomandra longifolia                 | Lime Jet™    | Lime Green          | Cream         | Upright arching clump    | 0.7m       | 1.0m     | 0.7m                   | to -5°C  | Medium loam to light sandy | 1 ~ 3         | Provides an exceptional lime green contrast against dark backdrops, brightens up any vista.                   |
| Lomandra longifolia                 | Soft Touch™  | Bright Green        | Cream         | Spherical tuft           | 0.7m       | 0.4-0.5m | 0.3m-0.5m              | to -10°C                                       | Medium loam to light sandy | 1 ~ 4         | Ideal for grass like hedges and borders. Massed plantings in large spaces, roadsides, parks and gardens.      |
| Lomandra x glauca                   | Blue Ridge™  | Light Blue          | Cream         | Upright clump            | 0.35m      | 0.3m     | 0.3m                   | to -10°C                                       | Medium loam to light sandy | 1 ~ 4         | Used when powder blue coloured foliage is needed. Extra tough in hot and cold areas.                          |

## Climate Zones

Over the past years Australia has experienced some extreme weather from droughts to significant rainfall. The climatic tolerances of a variety must therefore be measured not just according to temperature extremes, but also by seasonal rainfall patterns. The adjacent map shows four major climate zones for the Australian continent. Zones 2 and 4 have wet summers while Zones 1 and 3 have wet winters.

To assist in variety selection, please review the Specification Sheet above which nominates the recommended climate zone for each variety.
