

Flamenco™ HibisQs®

A new range of Hibiscus with bigger, brighter, longer lasting flowers!

Adonicus Pink

Genus: Hibiscus
Species: sinesis
Variety: Adonicus Pink

Pretty in pink!

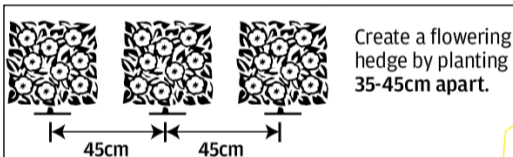

Gorgeous, big pink flowers! Adonicus Pink will easily become a garden favourite. The Flamenco HibisQs varieties will give your outdoor living area a burst of colour for at least 9 months of the year ... year round in warmer northern states!

Showy pot display

WOW! Just look at this incredible patio pot flower display. Flamenco's big, lush flowers last up to 6 days!

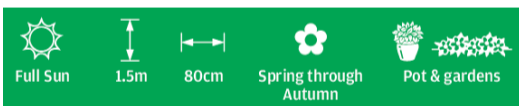

Excellent branching = many flowers!

Create a flowering hedge by planting 35-45cm apart.

Sensational flowering hedge

Plant 35 to 45cm apart to create a stunning flowering hedge. A clever and colourful way to establish a natural border.

Easy to Grow & So Versatile

Flamenco varieties love a full sun location. Depending on the varieties they will grow 1—1.5m high, and you can expect a continuous display of showy blooms throughout the warmer months. Plus, they are perfect for both patio pots and gardens.

Flamenco will give you the best, showiest display of Hibiscus flowers that last longer than other varieties.
