

Flamenco™ HibisQs®

A new range of
Hibiscus with
bigger, brighter, longer
lasting flowers!

Apollo

Genus: Hibiscus
Species: sinensis
Variety: Apollo

Let the sun shine!

Get that warm tropical feel with Apollo's many, large spectacular flowers of yellow, orange and burgundy. The Flamenco HibisQs varieties will give your outdoor living area a burst of colour for at least 9 months of the year ... year round in warmer northern states!

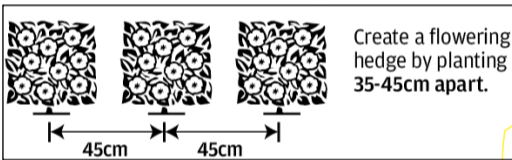

Showy pot display

WOW! Just look at this incredible patio pot flower display.

Flamenco's big, lush flowers last up to 6 days!

Excellent branching = many flowers!

Sensational flowering hedge

Plant 35 to 45cm apart to create a stunning flowering hedge. A clever and colourful way to establish a natural border.

Easy to Grow & So Versatile

Flamenco varieties love a full sun location. Depending on the varieties they will grow 1—1.5m high, and you can expect a continuous display of showy blooms throughout the warmer months. Plus, they are perfect for both patio pots and gardens.

Flamenco will give you the best, showiest display of Hibiscus flowers that last longer than other varieties.
