

## Adonicus Salmon

Genus: Hibiscus  
Species: sinensis  
Variety: Adonicus Salmon

### Bold strong colour!

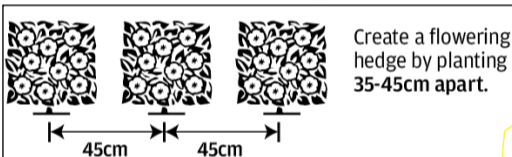

Big, beautiful flowers with amazing colour, Adonicus Salmon will be a scene-stealer in your garden.

The Flamenco HibisQs varieties will give your outdoor living area a burst of colour for at least 9 months of the year ... year round in warmer northern states!

### Showy pot display

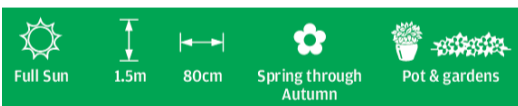

WOW! Just look at this incredible patio pot flower display. Flamenco's big, lush flowers last up to 6 days!

*Excellent branching = many flowers!*

### Sensational flowering hedge

Plant 35 to 45cm apart to create a stunning flowering hedge. A clever and colourful way to establish a natural border.

### Easy to Grow & So Versatile

Flamenco varieties love a full sun location. Depending on the varieties they will grow 1—1.5m high, and you can expect a continuous display of showy blooms throughout the warmer months. Plus, they are perfect for both patio pots and gardens.

**Flamenco will give you the best, showiest display of Hibiscus flowers that last longer than other varieties.**
